

TN and TP Hub ABS Tone Ring Mounting

HDNABI® is implementing a product improvement on Hubs with current ABS Tone Ring Mounting for TN and TP trailer applications. The current ABS Tone Ring Mounting will be replaced by a new reinforced Mounting design that increased Breakout force over 3.4 times compared with current mounting.

This change requires new part numbers assigned to the Hub as well as the Hub & Rotor assemblies with separate “Part Number Update Announcement” will be available soon. The improve design will be available for productions beginning 2nd quarter of 2021.

Please contact your account executive to initiate the changeover. Model and drawings are available upon request. The information in this bulletin is intended as a reference only. HDNABI® does not assume any liability in the event of improper use or mismatch of components.
